*Agile***Epic Link:** OrangeHRM**Description**

Testing the site's functionality to login

Case 1 - Login with correct username and password

As an Admin I will go to the OrangeHRM website and I will add correct username and password

When I will add the **correct username** and **correct password** and will press the login button

Then I will see the Admin Dashboard of OrangeHRM

Case 2 - Login with incorrect username

As an Admin I will go to the OrangeHRM website and I will add the incorrect username

When I will add the **incorrect username** and **correct password** and I will press the login button

Then I will receive an ERR message and I can't enter the Admin Dashboard menu

Case 3 - Login with correct username and incorrect password

As an Admin I will go to the OrangeHRM website and I will add incorrect password

When I will add the **correct username** and **incorrect password** and I will press the login button

Then I will receive an ERR message and I can't enter the Admin Dashboard menu

Case 4 - "Forgot your password" button

As an Admin I will go to the OrangeHRM website

When I press the "Forgot your password" option and this will re-direct me to the form

Then I can reset my password.

Agile

**Epic Link:** My info menu has a new functionality - Personal Details

### Description

My Info menu contains Contact Details

- insert Address: Street, City, State, Zip, Country
- insert Telephone details: home, mobile, work
- insert Email
- save informations
- add an attach

Testing the site's functionality to add Contact Details

Case 1 - In the submenu Contact Details complete the required fields with the correct type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Contact Details

When I will complete fields : **City(only alpha chars)**, **State (only alpha chars)**, **ZIPPP(only alpha chars)** with correct type of chars and will press the Save button

Then I will see the message "Successfully saved".

Case 2 - In the submenu Contact Details complete the required fields with incorrect type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Contact Details

When I will complete fields : **City(only alpha chars)**, **State (only alpha chars)**, **ZIPPP(only alpha chars)** with incorrect type of chars and will press the Save button

Then I will see an ERR message and the data are not saved.

**Epic Link:** My info menu has a new functionality - Personal Details

### Description

Steps to reproduce bug:

Go to OrangeHRM page

Click My Info menu after I logged in correct  
Select Contact Details submenu

Filled in State field with numeric char (incorrect type of char).

Save the data.

Expected results:

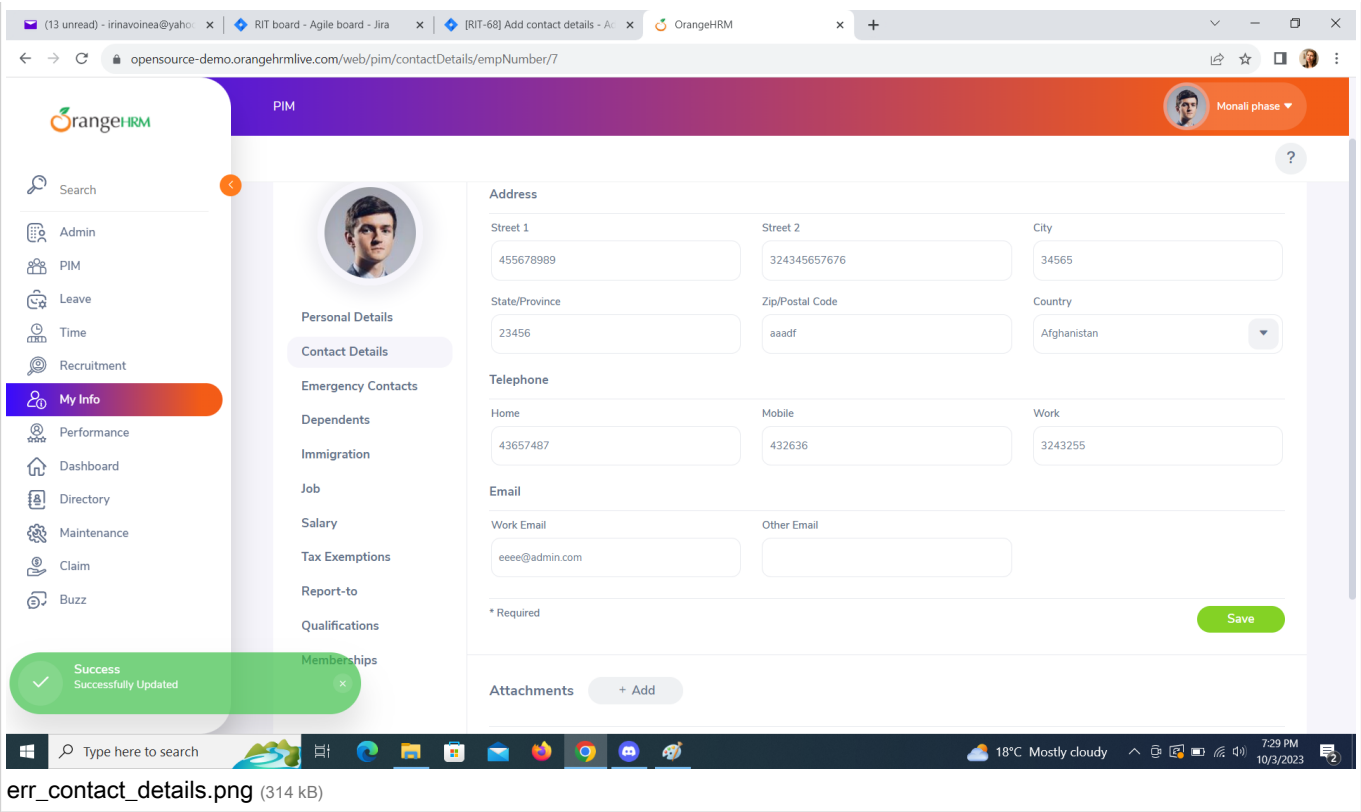

A warning message that the field State accepts only Alpha Characters

Actual result:

I can fill the field State with Numerical Characters and I could save the informations

Agile

**Epic Link:** My info menu has a new functionality - Personal Details

### Description

My info menu contains Emergency Contacts option/Assign Emergency Contacts/ADD

- insert Name
- insert Relationship
- insert phone
- save info

Testing the site's functionality to ADD an Emergency Contact

Case 1 - In the submenu Emergency Contacts/Add complete the required fields with the correct type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Emmergency Contacts/ADD

When I will complete fields : **Name (only alpha chars), Relationship (only alpha chars), Home Telephone/Mobile/Work Telephone (only numerical chars)** with correct type of chars and will press the Save button

Then I will see the message "Successfully saved".

Case 2 - In the submenu Emergency Contacts/Add complete the required fields with the correct type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Emmergency Contacts/ADD

When I will complete fields : **Name (only alpha chars), Relationship (only alpha chars), Home Telephone/Mobile/Work Telephone (only numerical chars)** with incorrect type of chars and will press the Save button

Then I will see an ERR message and the data are not saved.

Filled in Issued date field with a future date.

Expected results:

- If i complete an issued date in future - not possible
- I Receive an err message
- The record not save

Actual results:

- i can select a future issued date
- i can save the record

Agile

**Epic Link:** My info menu has a new functionality - Personal Details

### Description

My info menu contains Qualifications option:

- work experience
- educationskills
- languages
- license
- attachements

Test **Work experience** submenu

Case 1 - In the submenu Qualificatios/Add work experience the required fields is fill with the correct type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Qualifications/Work Experience/ADD

When I will complete fields : **Company (only alpha chars), Job title (only alpha chars),From (only numerical chars),TO (only numerical chars)**,with correct type of chars and will press the Save button

Then I will see the message "Successfully saved".

Case 2 - In the submenu Qualificatios/Add work experience the required fields is fill with the incorrect type of characters

As an Admin I will go to the OrangeHRM website/Login/My Info/Qualifications/Work Experience/ADD

When I will complete fields : **Company (only alpha chars), Job title (only alpha chars),From (only numerical chars),TO (only numerical chars)**,with incorrect type of chars and will press the Save button

Then I will see an ERR message and the data are not saved.

Case 3 In the submenu Qualificatios/Add work experience the Start date is in future

As an Admin I will go to the OrangeHRM website/Login/My Info/Qualifications/Work Experience/ADD

When I will complete fields : **FROM** with a date in future I will receive an warning message that the date in invalid

Then I can't save the informations.

Case 4 In the submenu Qualificatios/Add work experience I click Cancel button

As an Admin I will go to the OrangeHRM website/Login/My Info/Qualifications/Work Experience/ADD

When I will enter into the submenu and I don't wont to fill data anymore and I will press the Cancel button

Then I will return to the main menu of Qualifications.

**Epic Link:** My info menu has a new functionality - Personal Details

### Description

Precondition : to be on the OrangeHRM page/My Info/Qualifications

to be logged in with Admin credentials

Test Step	Test Data	Expected Result
1. I will go to the following link - <a href="https://opensource-demo.orangehrmlive.com/">https://opensource-demo.orangehrmlive.com/</a>		The OrangeHRM website will be displayed
2. After Login with Admin credentials, click My Info menu		My Info submenus are displayed
3. Click Qualifications submenu		Enter into this menu
4. Click ADD work experience		Enter into this menu
5. Fill Company Name	Alpha Numerical chars	The filed is editable and I can complete with my value
6. Fill Job title	Only Alpha chars	The filed is editable and I can complete with my value
7. Click Save button		I will receive an ERR message and the data are not saved

Version	Test Cycle	Status	Defects	Executed By	Executed On
Project 1.0	Qualifications	FAIL	0 1	IT Factory	09/Oct/23 11:37 AM

*Agile***Epic Link:** My info menu has a new functionality - Personal Details**Description**

Steps to reproduce bug:

Go to OrangeHRM page

Click My Info menu after I logged in correct  
Select Qualifications submenu

Filled in Job title with numeric char (incorrect type of char).

Save the data.

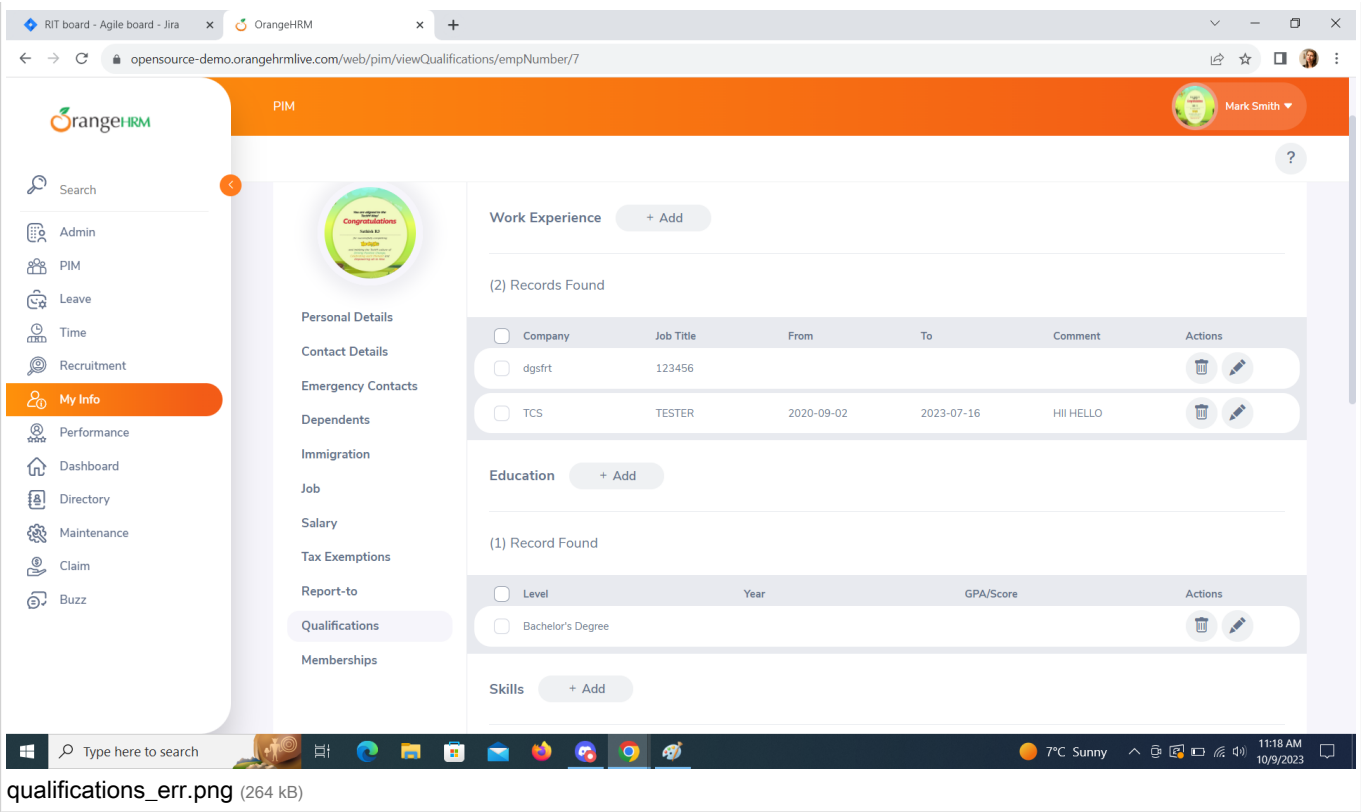

Expected results:

A warning message that the field Job title accepts only Alpha Characters

Actual result:

I can fill the field with Numerical Characters and I could save the informations

**Epic Link:** Data Base

### Description

Preconditions:

- Ensure that the database contains data for restaurant, dishes, orders and order dishes
- Make sure that there are records that meet the conditions.
- Prepare the necessary test data that will be used to validate the SQL Query ( e.g. to have restaurants that didn't sell any dishes last month, also to have restaurants with sells in last month)

Test Step	Test Data	Expected Result
1. Execute the SQL query in the database management tool (MySQL) SELECT r.name as nume_restaurant FROM restaurant r WHERE r.id NOT IN ( SELECT DISTINCT r.id FROM restaurant r JOIN dish d ON r.id = d.restaurant_id JOIN order_dish od ON d.id = od.dish_id JOIN orders o ON o.id = od.order_id WHERE o.created_on >= DATE_SUB(CURRENT_DATE, INTERVAL 1 MONTH) );		We expect to retrieve only the restaurants that didn't sell anything in the last month
2. Check that the name restaurant filled contains the expected name of restaurants		the result is: acuarela, marty, dapino
3. Manually cross-check the data to confirm the exclusion		
4. Manually check that the orders are from the last month		

Version	Test Cycle	Status	Defects	Executed By	Executed On
Project 1.0	restaurants that didn't sell anything last month	PASS		IT Factory	08/Nov/23 6:57 PM
